SALWA AMIN INTERIORS

CREATING UNIQUE,  
SIMPLE & RELAXING SPACES

Our philosophy is to maintain  
quality throughout.

Salwa Amin Interiors was founded in 2007 as an Interior design company, with a vision to grow into one of the best firms in the region. SAI now employs 18 multi disciplined team members who are capable of providing design solutions to corporate, hospitality, retail and residential clients.

Our in-house specialist wall finish team can complement any project with a variety of wall decorations and specialized plaster finishes. We are the sole local agent for a UK brand, Armourcoat which to date has been well received by consultants and clients the world over.

The reputation we have gained in providing financial and technical expertise in design, with consideration to the clients' cost and time objectives, allow us to take up do turn key projects, whereby we conceptualize, develop and execute aesthetically pleasing, functional interior spaces.

We understand the needs and demands of our clients and our strength over time, gained in sourcing exclusive surface finishes, furniture and fabric from Europe, USA, and the Middle East, lends us the ability to add value to a property. Our in- depth knowledge of materials, F, F & E (Furniture, Fixtures and Equipment) enables us to take a project to a timely completion, saving the client time and money.

We have a fresh approach to interiors; we combine our design flair, values, expertise and experience with new international trends and showcase our ability and value in the industry as a whole.

## SAI'S PHILOSOPHY

---

Keeping in mind the end user our philosophy is simply to provide solutions that are fitting to the context of the space. We offer our clients an honest approach to financial investment / return on their property and always try to nominate sub contractions that can be key team players in delivery of quality fit outs.

We aim to exceed our client's expectations and deliver what we say, on time and within budget. Conscientiously aware of our desire to improve all the time, as such we are working towards providing "green solutions" in specifications of materials always keeping in mind the conservation of the natural habitat.

“ We hope to bring to you a fresh perspective, with quality, experience and professionalism at all times. Our inspiration is drawn from nature, travel and global design trends. We are confident that our unique design flair to create beautiful spaces is a gift that we can bring to our clientele and industry as a whole. ”

8. *Hanging Systems*

## WHAT WE OFFER

---

Salwa Amin Interiors offers each of its clients a personal experience. Whether residential or corporate, we work with our clients by beginning with a one-on-one consultation to see how we can turn your inspiration into a reality. We then present a selection of 3D visuals of the space and once our clients are happy with their choice we begin the design development process and documentation. Salwa Amin Interiors also offers 'Turn-Key' project services for its corporate clients and site supervision for both residential and corporate projects. We pride ourselves in understanding our clients wants and needs, and in the words of Salwa Amin, "I work on each space as if it is my own".
